

Task 1 - Shading techniques

What do we mean by shading? Watch this video as the main input for your lesson.

<https://www.youtube.com/watch?v=-WR-FyUQc6I> 'How to shade with pencil for beginners'

Make sure that you watch it all the way through, making notes and pausing to try the techniques out as you go. Your main task is at 7:26, but watch the video to the end before going back to this section for a second time. Use the powerpoint slides as a further guide.

<https://www.youtube.com/watch?v=vMr6eimcolc> 'How to shade basic forms - pencil tutorial'. Watch this video for some further information. Try shading 3 of the 3D shapes shown (eg sphere, cube, pyramid).

Task 2 - Shading techniques - Greek columns

Watch this video to find out what we mean by Greek columns.

https://www.youtube.com/watch?v=_cfTbHLXT6w 'How do you recognise Ancient Greek architecture?' (MetKids)

Now watch both of the below videos as a guide to drawing a Greek Ionic column. In both of these, they use pen to make it more visible on screen and to accentuate the darkest shades. However, use your pencil shading techniques from Task 1 to help shade your column. An example can be found on the powerpoint.

Art and Music Activities

w/b: 2.6.20

Focus: Ancient Greeks - Week 2

Task 3 - Sculptures

In today's task you will learn about sculptures in Ancient Greece and have a go at sketching one of your own using your wonderful shading techniques.

There is plenty of information on the powerpoint, including pictures to help you, as well as a tip for a google search for further information.

Task 4 - Soap Sculptures: YOU WILL NEED: a bar of soap, some cocktail sticks/knives/other carving tools eg pencil, ruler etc.

Today's task is all about you becoming a sculptor yourself! Now that you are an expert, it is time to have a go. Marble is obviously too hard and we probably don't have any sitting around at home, so instead we are going to use a bar of soap. This is more malleable (can be moulded and carved more easily). Follow the steps on the powerpoint to help you - read through it all before you begin.!

As always, we'd love to see your artwork! Make sure that you send pictures to your class email address so that we can see your progress. Email us if you need any help. 😊
